Your best Great Lakes choice for...

- Production overflow
- Seasonal inventory
- Promotional inventory
- Raw ingredients
- Freight consolidation
- Store door pick operations
- Commodity and agricultural products
- Inventory strategically placed for chain and distribution pick up

Meeting all your very specific warehousing needs is our top priority.

8,600,000 cubic feet of modern freezer/refrigerated space.

- Modern, single story, fully-racked facilities
- -20 to +45 Fahrenheit capabilities
- State-of-the-art, computerized refrigeration systems
- Penthouse evaporators with all-external piping assuring product integrity
- Refrigerated rail and truck docks
- Modern blast freezing for full time service and emergency loads

The biggest, most modern, centrally located facilities serving the Great Lakes to New England.

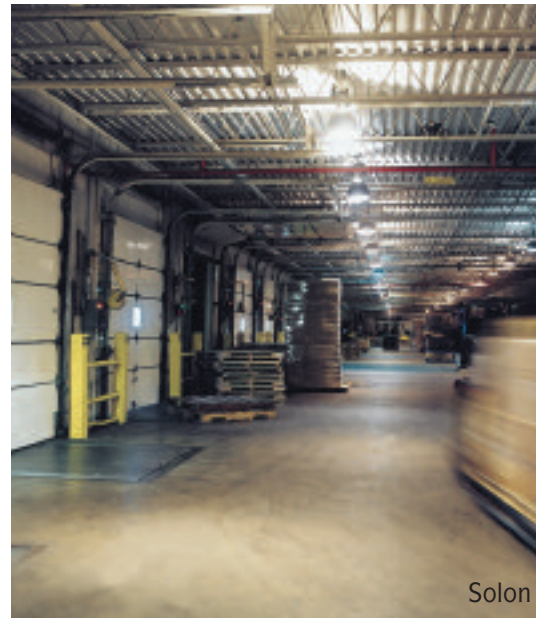

Full time, on-site inventory management ensures 100% accuracy.

- EDI and internet options including LogiView Suite let you monitor and manage your own inventory and data flow 24/7
- We support all major WINS transactions sets
- Bar code and RF capabilities
- High speed T1 lines for e-mail and other data transfer
- Remote PC internet link options keep you in touch from anywhere

You are always linked to your real time inventory at either Great Lakes Cold Storage facility.

Expansive refrigerated docks allow quick product movement in a sanitary, temperature controlled environment. We are regularly inspected by American Institute of Baking (AIB) and continually maintain a Superior rating.
